“ I wanted to write and tell you that the ***Super Donuts has saved me*** over the last several weeks. On Jan 12th I had to have emergency surgery due to an intestinal blockage that happened all of a sudden. I ended up being diagnosed with a rare condition that only 2% of the population get that causes a large amount of scar tissue in my abdomen. Due to this I have not been able to eat a lot of things. I cannot drink protein drinks, dairy, cannot eat most meats and a lot of other foods. My wife and I remember having super donuts in school years ago. We decided to order a box. Thankfully this works for me. ***I have been able to eat these daily which helps me have enough nutrition so I can function daily.*** Since then, we have bought several more boxes. I have a lot of people asking what I can eat and I share that I am using your product and I share your site. I just wanted to tell you that you have really helped me over the last several weeks. Without your product I do not know what I would have done. Please tell your team, thank you and keep up the good work. ”
